Pardis Basirijahromi

Associate Product Manager

Based in Italy · Open to relocation

pardis.basirii@gmail.com · +39 379 3145066 · linkedin.com/in/pardis-basiri/ · Portfolio: https://pardisbasiri.github.io/

Product professional with 2 years of experience across healthcare, telecom, and manufacturing, gained alongside my studies. I figure out what's worth building, then get hands-on with it, using AI tools to synthesize research, prototype ideas, and validate solutions quickly. I learn and unlearn quickly, turning insights into decisions and processes that move things forward. With a background in Computer Engineering and a double Master's in Digital Innovation and Human-Computer Interaction, I connect the dots between business, technology, and design to translate how people think, behave, and interact into better products.

EXPERIENCE

Associate Product Manager & Digital Strategist | PAMA S.p.A · *Internship · Hybrid · Italy* — *Sep 2025 – Sep 2026*

- Shifted digital service initiative selection from technology-first to user-problem-first, designed research-based product discovery and validation processes, and led cross-functional sessions to validate and adopt them.
- Enabled data-driven MVP success measurement and future pricing model decisions by introducing a practical data collection strategy using AI in a previously non-digital manufacturing environment.

Product Analyst | Trauma Center, Emtyaz Hospital · *Part time · Remote · Iran* — *Aug 2023 – Aug 2024*

- Improved identification of critical conditions by 18% by systematically testing a wide range of predictive models, including regression, decision trees, neural networks, and ensemble methods, and selecting the most clinically interpretable solution to inform a decision-support tool for hospital staff.

Junior Product Owner | Delinternet Telecom · *Full time · Remote · Spain* — *Mar 2023 – Aug 2023*

- Drove a 4% churn reduction by conducting usability evaluation, translating user needs into sprint-ready requirements, and driving cross-team alignment across product, UX, and technical teams through Scrum ceremonies.
- Contributed to the pilot launch of the inventory management area of the CRM by owning market research, product discovery and translating business needs into prioritized product requirements.

EDUCATION

Master's in Human-Computer Interaction & Design | University of Trento — *Sep 2025 – Oct 2026*

Master's in Digital Innovation | Universidad Politécnica de Madrid — *Sep 2024 – Jul 2025*

Bachelor's in Computer Engineering | Shiraz University — *Sep 2020 – Jul 2024*

SKILLS

Product Management	Product discovery, roadmap, backlog management, user stories, Agile & Scrum Jira, Confluence, Claude
UX Design & User Research	Usability testing, user interviews, prototyping, A/B testing, UI variations testing Figma, Maze, Miro, Hotjar, Midjourney
Data Analytics	Funnel analysis, KPI tracking, user feedback analysis, predictive modelling Python, SQL, Tableau, Amplitude, SPSS
Technical Fluency	System design, integration flows, requirements engineering, workflow automation REST APIs, Postman, JavaScript, React, Cursor
Business & Strategy	Stakeholder management, business case development, OKRs, value proposition, GTM Notion, Chatgpt, Claude, ChatGPT, Perplexity, Pitchbook, Excel
Languages	Persian (Native), English (C1), Spanish (A2), Italian (A2), German (A1)

AWARDS & RECOGNITION

- Won the Business Scalability Award at OdiselA4Good Hackathon (2025) and qualified for three phases of the Universidad Politécnica de Madrid Business Creation Competition (2025) by ideating and designing Settles Support.
- Collaborated on a published medical research paper, applying data analysis and advanced statistical methods alongside an interdisciplinary clinical team.

COURSES & CERTIFICATIONS

- Fintech Master Class | Centre for Finance, Technology and Entrepreneurship (CFTE)
- Digital Technologies and Entrepreneurship | University of Ljubljana, School of Economics & Business
- BCI & Neurotechnology Spring School 2026 Event | G.tec Medical Engineering
- Product Roadmapping (PRC)™ | Product School
- AI for Product Management | Pendo.io
- Brain Science in Interface Design | Interaction Design Foundation (IxDF)
